

HKMA David Li Kwok Po College Annual School Plan

2025/26

HKMA David Li Kwok Po College

1. Year Founded: 2000

2. Vision:

Our vision is to run a high-performance college that provides effective schooling to educate and equip students with the life skills needed to become responsible, caring, self-disciplined, and adaptable young people in a changing society. Ultimately, we aim for our students to be employable and productive members of the community and citizens of an increasingly globalized world. The college will nurture well-balanced, lifelong learners who are moral, literate, and culturally aware—intellectually, physically, and emotionally strong, and ready to serve society.

3. Mission:

Our mission is to provide a well-rounded education that fosters the holistic development of our students, encompassing moral, intellectual, physical, social, and aesthetic aspects. The college believes that each student has inherent worth and potential, and we are dedicated to helping them reach their full capabilities. We also believe that every child has unique talents that should be nurtured. Each student should become an effective and independent learner by accepting responsibility for their learning outcomes.

4. School Motto: In Search of Excellence

Our College is one of the more established schools within Hong Kong's Direct Subsidy Scheme (DSS) sector. We are dedicated to developing all students into well-rounded, lifelong learners who are biliterate and trilingual, with an international outlook, creative and proficient in information technology.

Annual School Plan 2025/26

Major Concerns 2025/26

1. Strengthening students' learning strategies through feedback and cross-disciplinary learning experiences
2. Promoting self-empowerment among students and nurturing them to be responsible citizens with a global vision

Major Concern 1 : Strengthening students' learning strategies through feedback and cross-disciplinary learning experiences

Feedback and follow-up actions from the previous school year 2024/25:

- The blueprint has enhanced the quality of assessments by ensuring alignment with learning objectives, improving content coverage, and promoting fairer evaluation. For further refinement, enhanced collaboration among teachers in the design and review of assessments is essential.
- Teachers' utilization of data-driven insights, provision of quality feedback, and implementation of follow-up strategies have been significantly enhanced. Further progress can be facilitated through the appropriate integration of artificial intelligence technologies.
- Teacher feedback has fostered student reflection, encouraging them to critically examine their understanding and identify areas for improvement. Promoting self-directed learning can further deepen their reflection.

Target: Enhance teachers' awareness of assessment data usage, improve the quality of feedback, foster students' reflective practices, and strengthen cross-disciplinary learning experiences to improve overall learning outcomes
